TOWN OF AURORA

EMERGENCY RESPONSE PLAN

PART 1: INTRODUCTION

Emergencies are defined as situations or impending situations caused by forces of nature, a disease or other health risk, an accident or an intentional act that constitutes a danger of major proportions to life and property. Emergencies affect public safety, including the health, welfare and property of residents, businesses and visitors, as well as the environment and economic health of the Town of Aurora.

The population of the Town of Aurora as of December 30, 2009 is 53,686 residents.

In order to protect residents, businesses and visitors, the Town of Aurora requires a coordinated emergency response by a number of agencies under the direction of the Municipal Emergency Control Group (MECG). These are arrangements and procedures that are distinct from the normal, day-to-day operations carried out by emergency services.

The Town of Aurora Emergency Management Program Committee developed this Emergency Response Plan (Plan). The Incident Management System (IMS) has been adopted in this Plan to define the basic command structure and to identify roles and responsibilities to ensure effective management of an emergency.

Every official, municipal department and agency must be prepared to carry out assigned responsibilities in an emergency. The Plan has been prepared to provide key officials, agencies and departments of the Town of Aurora with important emergency response information related to:

- Arrangements, services and equipment; and
- Roles and responsibilities during an emergency.

In addition, it is important that residents, businesses and interested visitors be aware of its provisions. Copies of the Town of Aurora Emergency Response Plan may be viewed at the Town Hall, Library and on-line at www.aurora.ca. For more information, please contact:

PART 2: AIM

The aim of this Plan is to make provision for the extraordinary arrangements and measures that may have to be taken to protect the health, safety, welfare, environment and economic health of the residents, businesses and visitors of the Town of Aurora when faced with an emergency.

It enables a centralized, controlled and coordinated response to emergencies in the Town of Aurora, and meets the legislated requirements of the *Emergency Management and Civil Protection Act*, R.S.O. 1990, c. E.9, as amended.

Emergencies can occur within the Town of Aurora, and the most likely scenarios as determined by risk analysis are related to air pollution and extreme weather.

For further details, please contact the Community Emergency Management Coordinator.

PART 3: AUTHORITY

The legislation under which the Town of Aurora and its employees are authorized to respond to an emergency are:

- The *Emergency Management and Civil Protection Act*, R.S.O. 1990, c. E.9, as amended

The contact phone numbers and addresses of the MECG members (and their alternates) are contained in **Annex B**.

When a member of the MECG, with the authority to activate the MECG, receives a warning of a real or potential emergency, that member will immediately contact the Emergency Contact Number (located in **Annex A**) and direct them to initiate the notification of the MECG, or the members of the MECG that are deemed necessary to deal with the situation as it exists at that time. At a minimum, the Mayor, Chief Administrative Officer (CAO), Fire Chief, Director of Legal Services/Town Solicitor, Director of Customer & Legislative Services/ Town Clerk, or their alternates, will be notified. The member initiating the call must provide pertinent details (*e.g.*, a time and place for the MECG to meet) as part of the notification procedure. The Sample Script in **Annex A** is the recommended format.

If deemed appropriate, the individual MECG members may initiate their own internal notification procedures of their staff and volunteer organizations.

Where a threat of an impending emergency exists, any member of the MECG may initiate the notification procedure and place MECG members on standby.

The Emergency Contact will record the date and time MECG members were contacted.

Requests for Assistance

Assistance may be requested from The Regional Municipality of York at any time by contacting the York Regional Police Communications Centre or the appropriate Regional agency. The request shall not be deemed to be a request that The Regional Municipality of York assume authority and control of the emergency.

Assistance may also be requested from the Province of Ontario at any time without any loss of control or authority. A request for assistance should be made by contacting Emergency Management Ontario.

The Emergency Notification Contact List, including contact numbers for requesting assistance, is attached as **Annex B**.

Relationship between the Town of Aurora and York Region

Some services are provided by The Regional Municipality of York to the Town of Aurora. In the event of an emergency, it is important that the two levels of local government operate in a cohesive, planned manner. This Emergency Response Plan contemplates the sharing of resources in order to provide the citizens of the Town of Aurora and The Regional Municipality of York with an effective, planned and cooperative approach to emergency management.

Risk analysis and critical infrastructure assessment have been jointly completed by the Region and the Town of Aurora as well as the surrounding area municipalities.

It is recognized that, in the event of a large scale emergency involving several or all of the nine area municipalities, the ability of the Region to provide staff to all nine EOCs and the Regional EOC may become strained, in which case the local area municipality may receive assistance from those agencies by communications link, rather than a direct presence in the local EOC.

PART 7: EMERGENCY TELECOMMUNICATIONS PLAN

Upon implementation of the Emergency Response Plan, it will be important to ensure that communications are established between the emergency site and the EOC. Also, communications may be required at various locations including evacuation centres, hospitals, and other key responding agencies.

The Emergency Telecommunications Coordinator (ETC) is part of the initial Emergency Notification Procedure. The ETC will call upon his/her contacts for further communications support, as required.

The Emergency Telecommunications Office will be located in an area adjacent to the EOC. It is equipped with portable hand radios, battery back-up, two-way radio with the necessary channels to communicate with police, fire, EMS and the Ontario Fire Marshal.

Communications between the EOC and the other responding agencies will be with the support of a runner. All messages are to be written on the approved forms and logged.

Should the Town of Aurora lose all telephone communications, pre-arranged communications could be obtained through the local Amateur Radio Operators Network.
